DestinE Community building and engagement

Eleni Karachaliou

PhD Candidate
Laboratory of Geoinformatics,
Aristotle University of Thessaloniki,
Greece

Destination Earth

Funded by
the European Union

Implemented by  **esa**

What is the DestinE Community?

- 🌐 A community of users that will guide the development and sustainability of DestinE.
- 🌐 A network where the continuous interactions amongst users/developers as well as stakeholders/partners will enhance the development and improvement of DestinE capabilities, but also catalyse cross-sectorial collaborations.
- 🌐 The place where opportunities for ongoing exchange are offered in an open and transparent way.

Why to build a community?

- 🌐 Identify user needs and preferences.
- 🌐 Tap into the knowledge and expertise of individuals from different fields or industries to develop what will meet their needs.
- 🌐 Test and validate the developed features and functionalities with the end users.
- 🌐 Foster collaboration between individuals with different backgrounds and perspectives.
- 🌐 Ensure adoption, uptake and sustainability of DestinE.

Why to build a community?

Tap into existing communities

Create a wide Community of Practice of Digital Twins of Earth Systems

Who can be a community member and what will do?

co-design, validate, develop and use the DestinE Components' capabilities in an open, inclusive and transparent environment

Upcoming event: Challenge

Ideating the Impact of
DestinE: a
collaborative design
session

Stay tuned and apply!!
